Our Programs Fight Homelessness in Greater Nashua.

Transformational Housing

Offers a safe, affordable home for single mothers and their children to stabilize while they rebuild their lives through education, financial literacy workshops and life skills training, ultimately reaching self-sufficiency.

Affordable Housing

The Agency owns three properties serving low-income households with affordable housing. The properties provide a total of 48 units for families. Our newest acquisition, Mary's House, provides permanent housing for homeless women ages 18+. It is a non-treatment, Section 8, subsidized apartment building with 40 single-rooms for women without children who need a safe, supportive living environment.

Housing Stability

Provides assistance with security deposits, back rent and utilities to families experiencing a short-term crisis. Works to rapidly re-house families experiencing homelessness with short-term rental assistance and case management.

Holiday Program

With generous support from the community, we provide toys and clothing to nearly 500 children in need during the holidays.

At the age of 30, Alyssa was living in Northern NH, in a camper without running water or electricity and pregnant with her second child. Feeling like her world was falling apart, she knew she needed to make some steps towards positive, long-term changes in her life. She applied for and was accepted into the Front Door Agency’s Transformational Housing Program. “I was thrilled to be accepted. My son and I lived at The Norwell Home for the first 6 months of the program. I enjoyed the community setting with freedoms like cooking on my own. The staff provided me with much needed structure and accountability like setting a curfew and giving me chores I was responsible for. They helped me to identify and work towards realistic goals, the importance of furthering my education and of saving money. Today, I have graduated into Phase III of the Program and in my own apartment and I’m working full-time in an apprenticeship program to become a licensed electrician.”
